

### THE ART HOUSE NINA MAYA INTERIORS

📍 *Felix Forest*

The Art house sees the transformation of a generously proportioned, but dated mansion into a stunning contemporary home with a lodge aesthetic influenced by the architecture of Anne Decker and celebrity homes.

### TOORAK HOUSE LUCY BOCK DESIGN STUDIO

📍 *Sharyn Cairns*

Focusing on supreme detailing, exquisite materiality and a richly layered palette, this minimalistic redesign to a period home features objects, artworks, furniture and bespoke furniture pieces with clean geometries, restrained colour and a boldness of form.

### TIDAL ARC HOUSE DECORATION BY SIMONE HAAG, ARCHITECTURE BY WOODS BAGOT AND INTERIORS BY HECKER GUTHRIE AND WOODS BAGOT

📍 *Derek Swalwell*

Tidal Arc house flips the stereotypical typology of an Australian coastal home on its head. Rather than go the light and bright route, the residence references the surrounding dark, ominous cliffs and stoic elements that comprise the coast.

### TOORAK RESIDENCE TRAVIS WALTON ARCHITECTURE

📍 *Elisa Watson*

Toorak residence is a contemporary interpretation of a grand mansion home harnessed by the beauty and exuberance of times past. From its classically ordered façade to its reverential interiors, a restrained historicism underpins the design approach.

### VICTORIA ROAD ALEXANDRA KIDD DESIGN

📍 *Pablo Veiga*

Victoria Road is a sprawling Georgian-style home previously renovated with compromises. The palette was influenced by the surrounding garden, specifically two generous jacarandas, inky shobo calligraphy and Scandinavian sensibilities.

**BRUNSWICK RESIDENCE LUCY BOCK DESIGN STUDIO**

📍 *Derek Swalwell*

This sensitive renovation communicates a sense of duality with an airy Victorian front and moodier and more contemporary extension. The interior is minimal and structured with a considered use of materiality and bold colour.

**JARTB HOUSE KAVELLARIS URBAN DESIGN**

📍 *Peter Bennetts*

This house reconnects the abandoned notion that art and architecture are separate. Art moves beyond cultural expression and becomes architectural syntax in this Toorak home.

**FLACK STUDIO HQ FLACK STUDIO**

📍 *Anson Smart*

Designed to foster design philosophies and the communities this design studio embraces, this project is a place where detail, materiality, colour, craft, humour, function, texture and gin come to play.

**MALVERN RESIDENCE DOHERTY DESIGN STUDIO WITH ARI ALEXANDER DESIGN GROUP**

📍 *Derek Swalwell*

Reminiscent of resort-style living in Palm Springs, this light-filled home has recently been extensively renovated to honour the home's architectural past with confident planning and bold colour.

**GREENBOX ARCHITECTURE STUDIO GREENBOX ARCHITECTURE**

📍 *Danial Nash*

Specifying soft, tantalising mustards and aubergine velvets, semi-precious jewel-like colours such as bronze-gold, leathers, black and white framed photography and intimate table lamps, this design studio captures the feeling of a boutique hotel lobby.

**MARQUISE FLAGSHIP STORE DOHERTY DESIGN STUDIO WITH ORTOLAN (GRAPHIC DESIGN)**

📍 *Sean Fennessy*

The flagship store for Australian Marquise was conceived as part inner sanctum with elements of play, nostalgia and room for true appreciation for the intricacies of shopping for baby clothes.
